

MACH[®] 3

Coin sorter/counter/packager

Compact coin sorter/counter/packager suitable for tabletop or portable applications

MACH[®] 3

Coin sorter/counter/packager

The **MACH 3** is a versatile, cost efficient, compact coin sorter/counter/packager that simplifies coin processing for any business that currently counts, sorts or wraps coin by hand.

Ultimate in versatility

MACH 3 sorting containers can be configured to create a truly customised solution for each application. Processing only a few coins of one denomination? Use a standard drawer for coin capture. Processing large amounts of other denominations? Use a bagging attachment to limit the number of times a user need stop the count process. Coin drawers (two sizes), coin bags, or packaging kits (US/Canada) can be used in any combination to optimise throughput.

Compact size

The **MACH 3** is equally at home sitting on the counter of a small bank branch, retail cash office, or, using the built-in carrying handle, transported from location to location to process vending or ticket machine contents. Counter space at a premium? The **MACH 3** easily stores under the counter and out of the way until it's needed.

Ease of use

User selectable bag stops as well as batch and grand totals are accessed via a direct access keypad. A two-line alphanumeric LCD display conveys operational messages at a glance. With few moving parts and full coin path access, the **MACH 3** is easy to use and maintain.

Configuration options

In addition to the various coin capture options, the **MACH 3** can also be configured with RS232 serial ports, audit trail printer, remote display, carrying bag/cover, and magnet kit for the removal of ferrous slugs and debris.

As the cash solutions experts, over 5000 retail banks already trust De La Rue's solutions and expertise. The global market leader in Branch Teller Automation solutions, De La Rue's unrivalled knowledge of the complexities of cash management enables us to understand individual customer requirements, to propose a quantified value proposition and compelling business case to help achieve commercial, operational and financial goals.
