Perfect for...

Retail, lifestyle, fashion, footwear and clothing operations.

Benefits;

- ✓ Software for Life
- ✓ UK Support & Development
- ✓ Seamless Integration

APRICOT

“The FM Retail EPOS terminals look clean and modern, they blend in well with our colour pallet in store. The touchscreens are very easy to use, plus because they are all-in-one terminals, there is less equipment, so that helps with PCI training and making sure staff understand the set up. We are certainly happy with the EPOS solution we now have and aim to stay with it as we continue to grow. We have purchased 14 systems so far and wouldn’t hesitate to purchase again.”
