Cunninghams epos group

FM RETAIL

EST. 2000
Collectif
LONDON

"Before FM Retail, we had no automated stock control system at all. It was Excel and emails for a huge operation that needed more. Since FM Retail, we now manage stock across all platforms with our stores and website all completely integrated. The system is fast, reliable and for all of this, FM Retail has been a key factor in helping us grow as a company."

Guery Ferrufino
IT Manager
